

# Connect Four – Quick & Fun Rules

## ■ Your Mission

Be the first to get **four of your discs in a row** — across, up-and-down, or diagonal.

## ■ Taking Turns

1. Pick your color (red or yellow).
2. Players take turns dropping **one disc at a time** into the grid.
3. Discs always fall to the **lowest open spot** in that column.

## ■ Winning the Game

- As soon as you line up four in a row, shout it loud: **“CONNECT FOUR!”**
- If the board fills up and no one has four, it’s a **draw**.

## ■ Tips & Tricks

- Watch your opponent — blocking them is just as important as setting yourself up.
- Think ahead: sometimes dropping a disc in one spot sets up a win two turns later.
